The S3T team were very professional and did an excellent job. I don't live in Dubai so it was even more important to have a trustworthy and reliable team, as I could not oversee things myself. Sarvajit and his team did an excellent job and I would recommend them highly.

It is my proud privilege to write a review for S3T Koncepts, Dubai, of which Mr. Sarvajit is the pioneer. I recently got my office fitted through Mr. Sarvajit's company and I must say that I found Mr. Sarvajit to a blend of the great human values such as commitment, excellence in work ethics and total dedication to the finer aspect of artistic taste of how model fittings should look like. He spent enormous amount of time in looking after meticulous details like for example just selecting the tiles, the kitchen and the roof details like the little master on a ship and we really enjoyed his craftsmanship albeit in relatively small space. but his quality of having completed the job within the specified time as per his contractual obligations, which is by enlarge a rare quality impressed me the most. may Lord bless him with success in the Olympian heights of the immense glory and magnificence,

We had an urgent job we needed to get done and S3T Koncepts really went above and beyond. Everything was super easy and we are so glad that we went with them. The communication to the set up and the work itself was seamless. Job was completed on schedule and they sent me updates all along the way. I can recommend them enough for any job big or small.

It was indeed a very pleasant experience working with the very talented and professional team of S3T Koncepts. Our work was completed in time, with the exact specifications that we agreed upon, at the time of signing the service engagement contract. The Personalized approach is very hard to find these days with a lot of similar companies that operate in the region. the Owners were just a call away and were indeed very receptive in handling any issues. and all this was offered with the most competitive pricing. It's definitely highly recommend company from our side.

We compliment and thank TEAM S3T for an excellent job in designing and building our office in Ajman Free Zone. This is the second office they have worked on for Hutchison Ports and the team remained consistent and well versed in its technical knowledge and aesthetics.

From the inception of the project to the handover, S3T Concepts never missed to take an effort to send its team regularly at site to ensure that the progress of the work went smoothly.

We really appreciate S3T's responsiveness to all our queries and requirements.

Most importantly, they have managed to fully execute and complete the work ON TIME, once again much to our delight and satisfaction.
